**Question 28.** A. As a result                      B. In addition                      C. On the contrary                      D. For example

**Question 29.** A. after                      B. at                      C. up                      D. for

**Question 30.** A. exploration                      B. discoveries                      C. inventions                      D. search

**Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions (from 31 to 35 ).**

### FOOD FIRSTS

How much do you know about the history of some of your favorite foods? Do you know when people in England started cooking curry dishes? Do you know in which country pizzas or hamburgers were first made? The facts might surprise you.

Many people think the English found out about curry from people in India in the 1600s. In reality, wealthy English people were eating dishes made with curry spices hundreds of years before British ships traveled to India. Cooks of wealthy English families during the time of King Richard I were making curry dishes, and in fact, the word "curry" can be found in an English language cookbook as far back as 1377.

As for pizza, this dish was probably first made in Persia (what is now Iran). The Persians were eating round, flat bread with cheese in the 500s. That was nearly 1,000 years before pizza caught on in Naples, Italy!

Finally, let's look at the truth behind hamburgers. Many people think hamburgers are an American food. However, according to some stories, hamburgers came from Hamburg, Germany. A German named Otto Kuasw created the first hamburger in 1891. Four years later, German sailors introduced hamburgers to Americans.

Where foods come from isn't nearly as important as how **they** taste; as long as they are delicious! So, go get some of your favorite food and dig in.

**Question 31.** What is the main idea of this reading?

- A. There are many foods that help your body.
- B. People created fast food long ago.
- C. Curry was created in England.
